## 12. ABOUT MANCHESTER

Manchester is now one of the most successful and well known cities in Europe notably for its architecture, culture, music scene, media links, scientific and engineering output and sporting connections.

Manchester has always been a city renowned for innovation and enterprise, even dating back to the 1800's where Manchester was the first city of the industrial revolution, sparking a pioneering method of manufacturing products which literally changed the world. Keeping with this theme Manchester remained a city of innovation over the generations where the firsts kept coming. The first ever professional football league, the first programmable computer, the first test tube baby and most recently the first purpose built indoor BMX facility.

Manchester is also now well respected for its recent achievements, principally with regards to cycling. Manchester is now the heart of World Cycling, in particular it is well documented as home to the most successful Olympic Cycling team ever that train at Manchester's National Cycling Centre on a daily basis. Manchester's rich sporting heritage is also complimented by a record of consistent high quality sporting events. From the Commonwealth Games to the UCI Track World Championships, the Rugby League World Cup and hosting the NBA Global Games, Manchester has demonstrated its capacity and appetite to deliver events to the highest standards.

Furthermore the city played host to international athletes during London 2012 with Olympic teams including Swim Australia and athletes from Brazil and Thailand. Manchester was also the only city in the North West of England to host an Olympic event with matches in the men's and women's football taking place at the famous Old Trafford football stadium.
