

dit kan ik al!

- ☐ ik kan getallen aanvullen tot 10.
- ☐ ik kan splitsen tot 10.
- ☐ ik kan optellen tot 20 zonder brug.

1 los op.

10	
8	2
9	1

6	
2	4
1	5

8	
2	6
1	7

7	
2	5
1	6

5	
2	3
1	4

optellen met brug

$$9 + 5 =$$

$$9 + 5 =$$

$$9 + 5 = \underline{9 + 1} + 4 =$$

$$9 + 5 = \underline{9 + 1} + 4 = \underline{10} + 4 =$$

$$9 + 5 = \underline{9 + 1} + 4 = \underline{10} + 4 = \mathbf{14}$$

2

gebruik **blauw** en **groen** om de oefening te kleuren in het twintigveld.

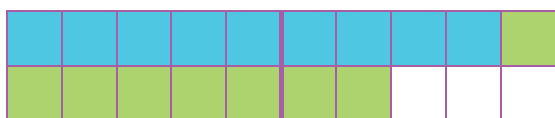

los op.

zo werk ik:

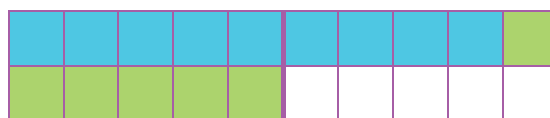

$$9 + 5 = \underline{9 + 1} + 4 = \underline{10} + 4 = \mathbf{14}$$

$$9 + 8 = \underline{9 + 1} + 7 = \underline{10} + 7 = \mathbf{17}$$

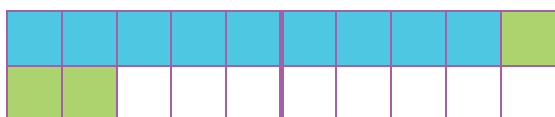

1 7

$$9 + 6 = \underline{9 + 1} + 5 = \underline{10} + 5 = \mathbf{15}$$

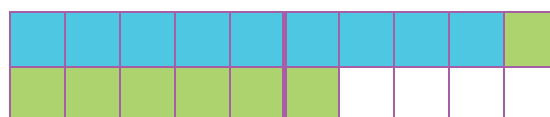

1 5

$$9 + 3 = \underline{9 + 1} + 2 = \underline{10} + 2 = \mathbf{12}$$

1 2

$$9 + 7 = \underline{9 + 1} + 6 = \underline{10} + 6 = \mathbf{16}$$

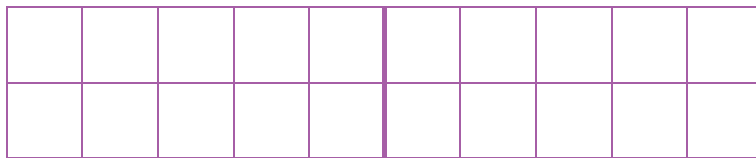

1 6

3

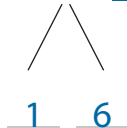

los op. je mag de tussenstappen noteren. je mag blokjes gebruiken.

$$9 + 5 = \underline{9 + 1} + 4 = \underline{10} + 4 = \mathbf{14}$$

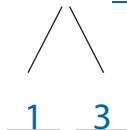

$$9 + 7 = \underline{9 + 1} + 6 = \underline{10} + 6 = \mathbf{16}$$

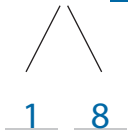

$$9 + 6 = \underline{9 + 1} + 5 = \underline{10} + 5 = \mathbf{15}$$

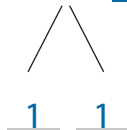

$$9 + 4 = \underline{9 + 1} + 3 = \underline{10} + 3 = \mathbf{13}$$

$$9 + 9 = \underline{9 + 1} + 8 = \underline{10} + 8 = \mathbf{18}$$

$$9 + 2 = \underline{9 + 1} + 1 = \underline{10} + 1 = \mathbf{11}$$

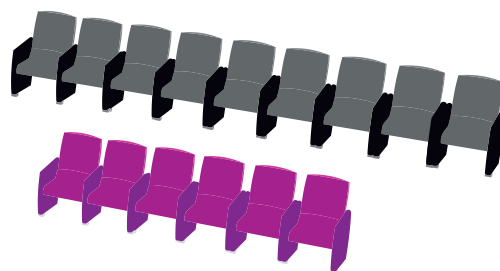

4

los de vraagstukken op.

1. in een kleine filmzaal staan 9 grijze stoelen en 6 paarse stoelen.
hoeveel stoelen zijn dat samen?

$$\text{bewerking: } 9 + 6 = \underline{9 + 1} + 5 = \mathbf{15}$$

antwoordzin: er staan in het totaal 15 stoelen.

2. voor de film staan 9 bekers water, 5 bekers met fruitsap en 5 pakjes chips klaar.
hoeveel bekers drank staan er klaar?

$$\text{bewerking: } 9 + 5 = \underline{9 + 1} + 4 = \mathbf{14}$$

antwoordzin: er staan 14 bekers drank klaar.

5  vul in: <, > of =.

$$9 + 7 = 7 + 9$$

$$9 + 7 > 9 + 6$$

$$9 + 3 < 9 + 5$$

$$9 + 8 > 9 + 7$$

$$9 + 6 = 6 + 9$$

$$9 + 4 > 9 + 3$$

6  vul in.

$$9 + \underline{8} = 17$$

$$9 + \underline{4} = 13$$

$$9 + \underline{9} = 18$$

$$9 + \underline{5} = 14$$

$$9 + \underline{3} = 12$$

$$9 + \underline{5} = 14$$

$$11 = 9 + \underline{2}$$

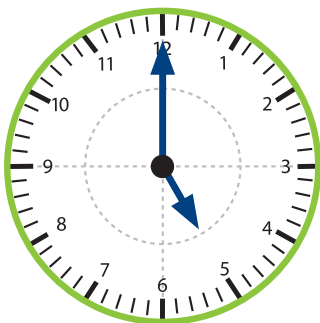

$$15 = 9 + \underline{6}$$

$$11 = 9 + \underline{2}$$

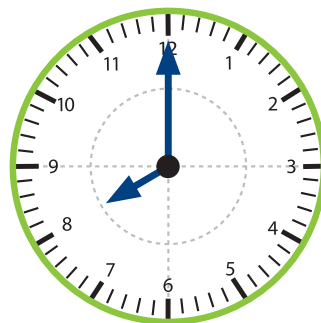

dit heb ik vandaag geleerd.

- ik leerde optellen met brug over 10.

KLOK-JE-MEE?

het is **5 uur**.

het is **8 uur**.
