## Map

Day ①: Punta Arenas

Day ②: Ainsworth Bay – Tuckers Islets\*

Day ③: Pía Glacier – Glacier Alley\*\*

Day ④: Cape Horn – Wulaia Bay

Day ⑤: Ushuaia

\* In September and April, this excursion is replaced by a short walk to a nearby glacier at Brookes Bay.

\*\* Not an excursion

## Day 1: Punta Arenas

Check in at 990 Magallanes Street between 13:00 and 17:00. Board the M/V Via Australis or M/V Stella Australis cruise ship at 18:00. After a welcoming cocktail reception hosted by the Captain and his crew, the ship will depart for one of the remotest parts of the planet. Our trip will take us through the Strait of Magellan and Beagle Channel to explore one of the most breathtaking wilderness regions in the world: Southern Patagonia, which includes the Tierra del Fuego archipelago.

## Day 2: Ainsworth Bay - Tuckers Islets

At dawn, we will navigate our way through Almirantazgo Sound, arriving at Ainsworth Bay which is sited within Alberto De Agostini National Park. It's the perfect spot from which to see the Marinelli Glacier descending from Darwin Mountain Range in the distance; and to appreciate how the land returns to life after glacial retreat. We will also take a walk to a beaver dam in the stunning sub-polar Magellan Forest. Whether on the beach or the island, there's a good chance of sighting Southern Elephant Seals. But do bear in mind the fact that sightings cannot be guaranteed due to the colony's unpredictable movements. Later, we will be sailing to Tuckers Islets, and after lunch, we will board well-equipped Zodiac boats to get close to a colony of Magellan Penguins (indigenous to the Southern Hemisphere) and cormorants.

## Day 3: Pia Glacier - Glacier Alley

We will navigate along the northwest arm of the Beagle Channel before disembarking at Pia Fjord. From there, we'll take a short hike to a panoramic viewpoint from where we can enjoy spectacular views of the awe-inspiring Pia Glacier whose main tongue extends from the mountaintops down to the sea. After this memorable experience, we will continue our voyage along the Beagle Channel through the majestic Glacier Alley.

## Day 4: Cape Horn - Wulaia Bay

During the morning we will be sailing through Murray Channel, going ashore at historical Wulaia Bay, originally the site of one of the region's largest Yamana aboriginal settlements. Charles Darwin landed there in 1833 during his voyage on the HMS Beagle. This area is also renowned for the mesmerizing beauty of its vegetation and geography. We will take an enchanted walk through the Magellan Forest of lengas, coigües, canelos, ferns, and other endemic vegetation, to reach a panoramic viewpoint. In the afternoon we will go South through Nassau Bay to reach Cape Horn National Park, where, weather permitting, we shall go ashore. The legendary Cape Horn was discovered in 1616 and is a sheer 425-meter (1,394-foot) high rocky promontory. For many years it was an important navigation route between the Pacific and the Atlantic, and is referred to as the 'End of the Earth'. The park was declared a World Biosphere Reserve by UNESCO in 2005.

## Day 5: Ushuaia

Disembarkation in Ushuaia: Stella Australis: arrival at 08:30 a.m. and 9:30 am according to date of departure.  
Via Australis: arrival at 09:30 a.m.

NOTE: The excursions described in the itineraries can normally be carried out. Notwithstanding the above, Transportes Marítimos Terra Australis S.A., Transportes Marítimos Via Australis S.A., and Transportes Marítimos Geo Australis S.A reserve the right to reschedule, shorten, or alter all or part of the itineraries and/or excursions without prior notice, in order to safeguard the wellbeing and safety of passengers, preserve the environment, or due to any extraordinary circumstances, acts of God or force majeure. For the same reasons, the hours of departure or arrival of the vessels may be subject to change. There is no guarantee of wildlife sighting because the precise location of these animals cannot be confirmed.

## Season 2014 - 2015

(Rates per person in US\$)			
Cabin	Promotional	Low	High
B	1.440	1.800	2.298
A	1.932	2.410	2.957

- Single rate in A, AA, AAA, AA Sup or AAA Sup will be 150% of the category rate. Single rate does not apply to Category B. Cabins AA Superior and AAA Superior are only available in M/V Stella Australis.

During the cruise there will be interesting presentations on the wildlife, history and geography of this legendary region given by the Mare Australis and Via Australis Expedition Group. The presentations will take place both on board (with audio-visual support) and on land.

## Navigation Route

It is the first lecture that is given to passengers and its objective is to present the region and Patagonia to the world, showing where we are and where we will be going day-to-day on our cruise, places we will visit, climate, suggested clothes for excursions, possible sightings etc...

## Glaciology in Patagonia

From the landscape's perspective we talk about "Glaciology in Patagonia" as a way to explain the natural process that shaped the Planet's Landscape, Patagonia and Tierra del Fuego, we explain the glaciers' origin, forms, colors and the former/current conditions, giving an important message regarding care for the environment and the planet.

## Discovering Tierra del Fuego

Discovering Tierra del Fuego This lecture gives an interesting vision regarding the sailors who explored this territory, their adventures and encounters with the southernmost natives of the world. The British Phillip Parker King, Pringle Stokes, Charles Darwin, Francis Drake, the Dutch Wilhem Schouten and Jacob LeMaire, the French Bouganville, the Spaniards Ferdinand Magellan, Pedro Sarmiento de Gamboa, the Nodal brothers and their encounters with the local Patagones (Aonikenk), Onas (Selknam), Yamanas (Yaghans), Alacalufes (Kaweskars) and Haush (Manekenk)

## Cape Horn information in advance

This talk explains the next day's landing activity in the mythical Cape Horn, which also shows photos of the landing site and discusses the possible weather conditions. Some safety instructions are given to provide maximum enjoyment of the expedition. It also mentions the Monument to the Albatross, the Chapel, the lighthouse, the history of the Capehorniers, navigation around the Horn, and its importance today.

## Wulaia Bay Information in advance

This talk explains the landing in the bay along with the group options for walking to the hill, describing its degree of difficulty, or the walk along the beach. Pictures of the place are shown and the historical importance of this bay from the anthropological and historical point of view (Yaganes, Darwin, Fitz Roy, Jemmy Button) is spoken about.

## Life onboard

This is the first talk explaining how the ship works, and is accompanied by a review of the national parks that are visited along with the environmental protection policy of Australis.

## Visit to Engine Room

A tour is carried out of the engine room with the guides who lead groups and the engineers on shift.

## Visit to the Bridge Command

Tour led by guides and the pilot on shift showing the command bridge, the chart table, and the ship's safety devices.

NOTE: The presentations described in the itineraries can normally be, and are frequently, carried out. Without prejudice to the aforesaid, Transportes Marítimos Terra Australis S.A., Transportes Marítimos Via Australis S.A., and Transportes Marítimos Geo Australis S.A. reserve the right to reschedule shorten or alter all or part of itineraries and/or excursions without previous notice.
