

Este despiece de Montesa Cota 25 se ha digitalizado sin ningún ánimo de lucro, y sólo con la intención de ponerlo a disposición de todos los propietarios de estas motocicletas que necesiten información para su mantenimiento o reparación. Para ello se colgará en <http://montesakingscorpion.blogspot.com> y se remitirá al Club Montesa para que disponga del mismo a su conveniencia.

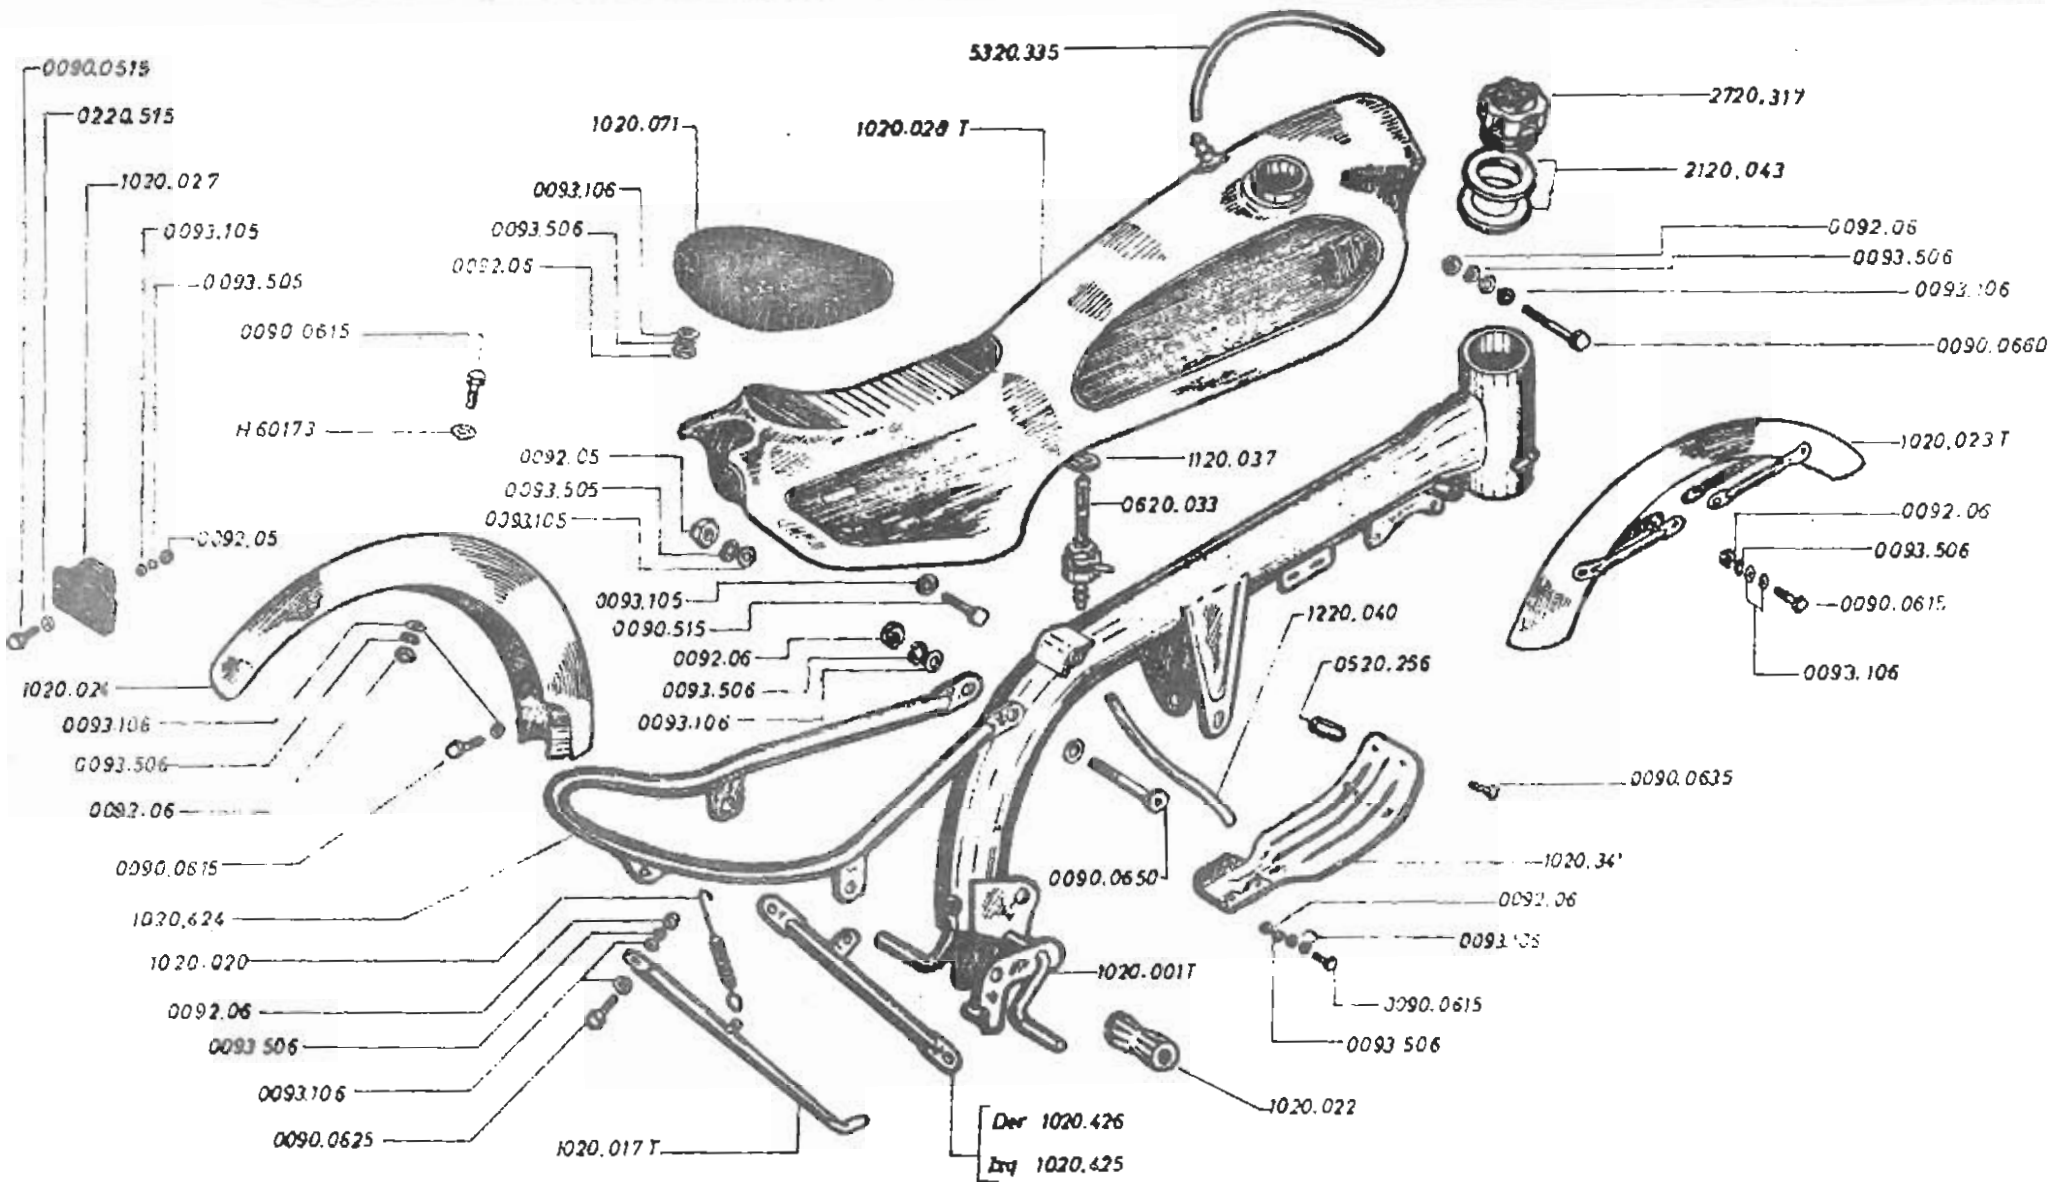

Como todos los manuales de Montesa, está organizado por secciones, que se inician con el Bastidor (Frame Group) y terminan con Accesorios Opcionales (Optional Accessoires Group). Dentro de cada sección existe siempre una Hoja llamada "Modif-" que muestra el punto de partida en la primera unidad producida (en este caso, la 10M001 porque se trata de una Cota 25A); cada vez que se produce un cambio en la producción veremos una "Modif x" desde el número de serie "y", con una indicación de a partir de qué número de moto se puede utilizar dicha pieza. En el caso de este manual, en la sección "Frame Group", la segunda Hoja es la "Modif 1" que se comienza a montar en la unidad 10M1100 pero es útil como recambio desde la 10M0001. Adicionalmente se refiere en cada hoja a los números de página de los comentarios correspondientes ("Remarks on modif sheet") a cada una de las modificaciones. Lamentablemente no disponemos de dichos comentarios.

Dentro de cada hoja encontraremos las piezas correspondientes a dicha sección, que llevan una numeración basada en tres grupos de dígitos separados por puntos. El primer grupo corresponde al modelo (10 en nuestro caso), el segundo grupo de dígitos al grupo de piezas (en el caso de la primera hoja sería 20, que es la cifra correspondiente al grupo), el tercer grupo de dígitos corresponde a la pieza en concreto. Así vemos como en la primera hoja de este documento ("Bastidor Modif-" o "Frame Modif-"), el número de pieza 10.20.023 T corresponde al guardabarros delantero, que pasa a ser 10.20.023.1T en la segunda hoja de este documento ("Bastidor Modif 1" o "Frame Modif 1")

No necesariamente cada hoja de modificación corresponde a una serie completamente diferente de motocicletas, porque era política de la fábrica ir mejorando constantemente los modelos.

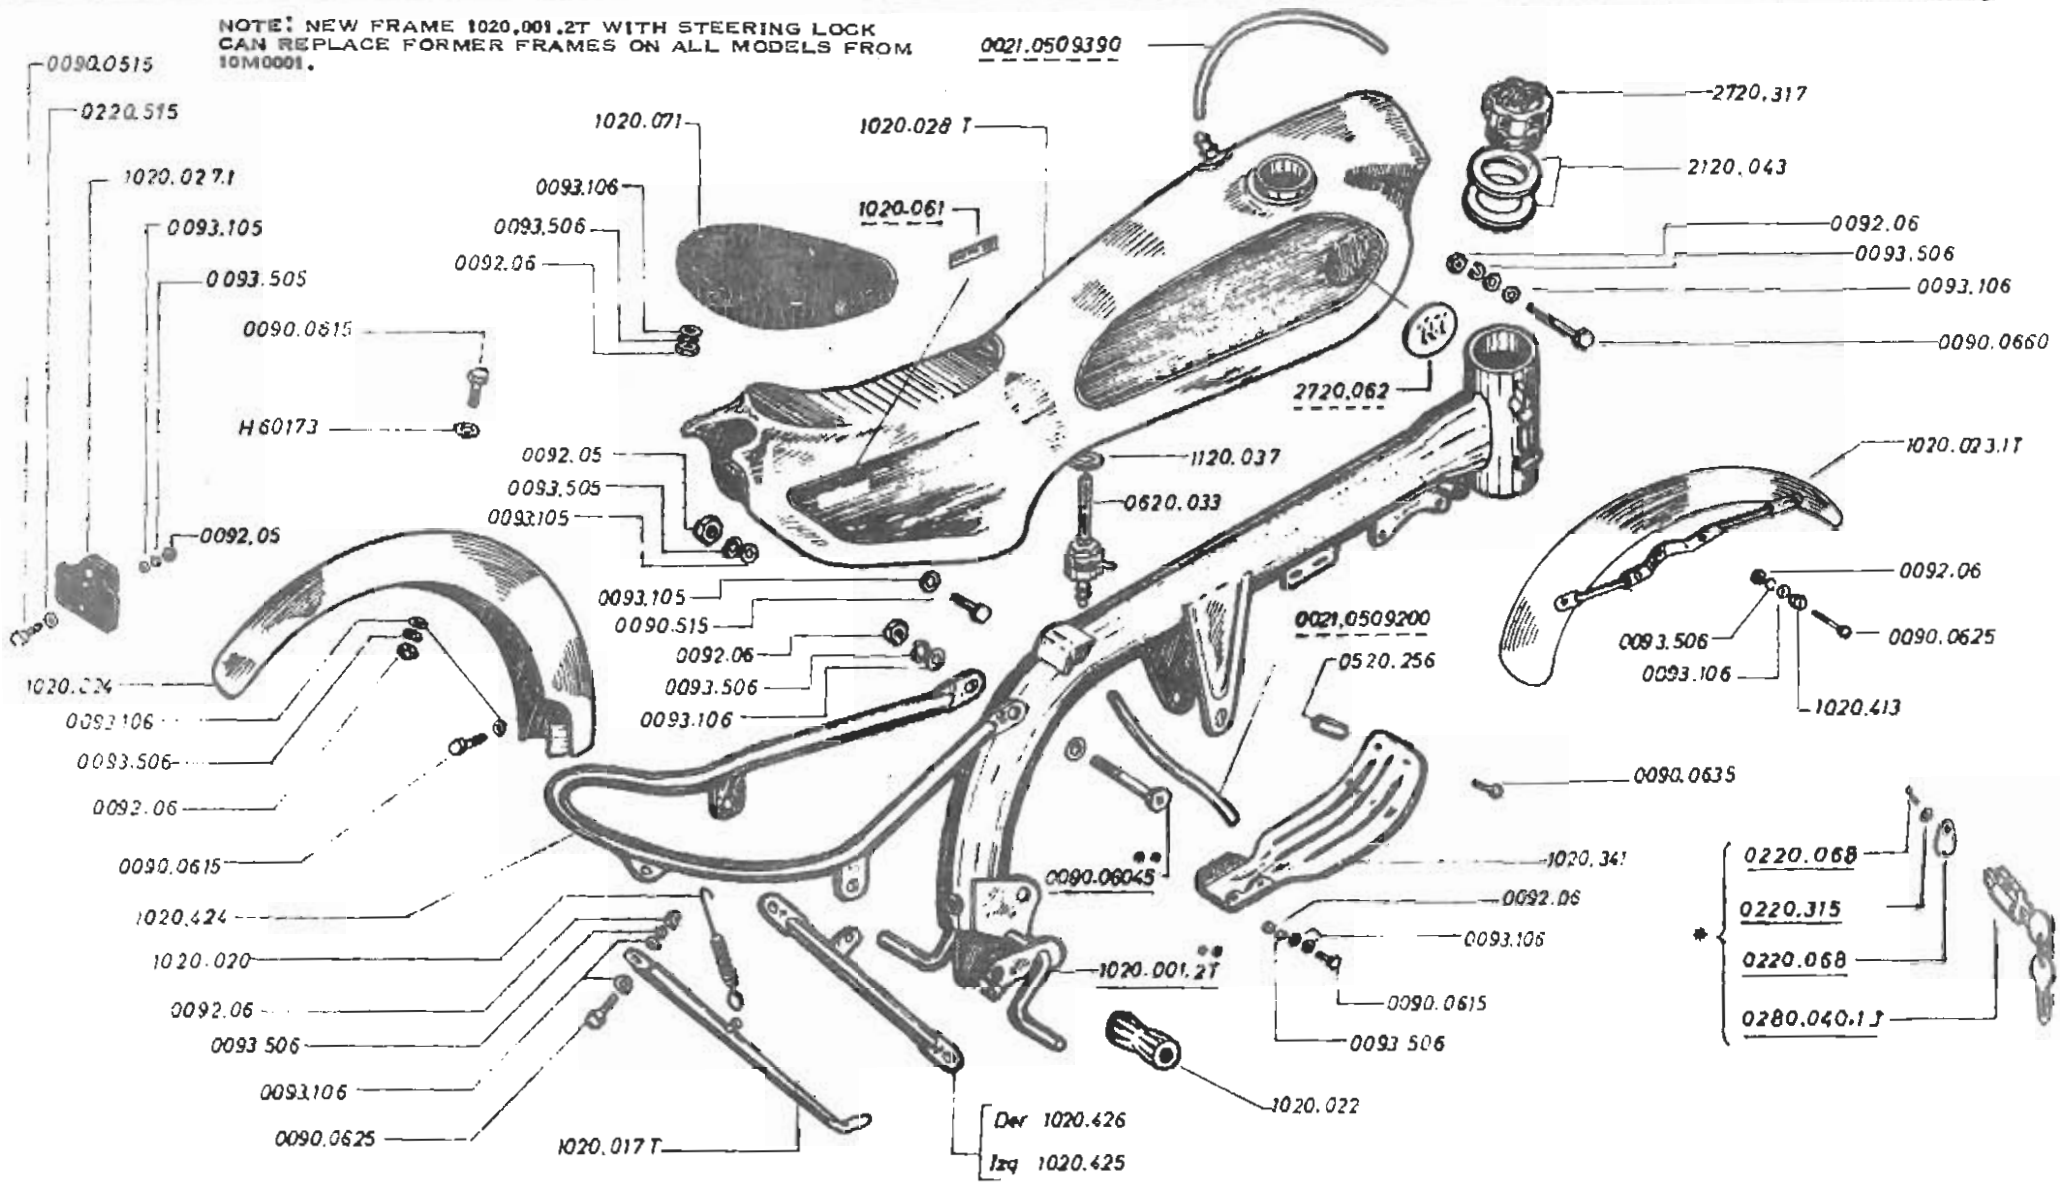

Esta versión de despiece está en inglés porque fue adquirida a través de Ebay a Cosmopolitan Motors, Inc. y se pone a disposición de los propietarios de Cota 25 tal cual está y sin asumir ningún tipo de responsabilidad por los daños que pudieran derivarse de su uso.

Si alguna otra persona tiene una información más actualizada del mismo, o que pueda ser complementaria, se ruega contactar con <http://montesakingscorpion.blogspot.com>
